Rehabilitation Institute
of Tucson

Care focused on you

The right rehabilitation program can make all the difference in how quickly you return to your community and to the things you love after an illness, injury or surgery.

Finding a comprehensive rehabilitation hospital that meets your needs is key, as every person's condition requires its own specific treatment. We know understanding the process to make the right choices can be overwhelming. We're here to help you navigate through the process and to demonstrate how Encompass Health Rehabilitation Institute of Tucson will work for you.

It all starts with our expert rehabilitation team and physicians.*

Experience comprehensive care

When you select us as your rehabilitation partner, you're choosing a highly-qualified team of therapists, nurses and physicians focused on you, working together to deliver a fully coordinated program of rehabilitative care. Each program is personalized to your condition and backed by state-of-the-art technology, so you'll receive the most advanced treatments for the greatest potential outcome.

We're dedicated to one goal: returning you to your community as quickly as possible with the highest level of independence. When you choose us, you'll have of the largest provider of inpatient rehabilitation and home-based care in the country on your side.

Ensuring the best outcome

Your ability to function independently is our main goal. Our hospital is accredited by The Joint Commission to provide medical and therapeutic services. We work with experienced independent firms to continually measure patient outcomes and satisfaction to further enhance our services. With our advanced technologies, experience and knowledge, we help ensure you reach your best possible outcome.

* The hospital provides access to independent physicians.

Make the right choice

The next step in your recovery is determining which hospital is best for you. There are many advantages to choosing a rehabilitation hospital like ours. Many facilities offer similar services but, the quality, expertise and level of comprehensive care can vary significantly.

The following questions can help you evaluate your options and guide your selection for inpatient rehabilitative care.

Questions to ask	Our hospital	Other facilities
1. Is the hospital a Medicare-certified Inpatient Rehabilitation Hospital (IRF), accredited by a recognized organization such as The Joint Commission or the Commission on Accreditation of Rehabilitation Facilities?	✓	
2. Does the hospital have spacious, well-equipped therapy gyms and cutting-edge rehabilitation technology to help you fulfill your potential for recovery?	✓	
3. Will your care be overseen by a rehabilitation physician who sees you at least three times a week to manage your medical needs?	✓	
4. Is the hospital required to monitor how well patients progress as a result of their rehabilitation?	✓	
5. Will your care be provided with the goal of returning home after rehabilitation?	✓	
6. Does the clinical staff work as a team, conducting formal team conferences weekly to ensure you benefit from your rehabilitation?	✓	
7. Are there expert physical, speech and occupational therapists who provide an individualized treatment plan based on your specific needs?	✓	
8. Are rehabilitation services required at least three hours daily, five days a week?	✓	
9. Do patients and family members meet regularly with physicians and the rehabilitation team to set goals and discuss progress?	✓	
10. Does the staff provide patient and family education and training?	✓	
11. Does the hospital refer you to community services to help you and your family with the skills needed for a smooth transition back to your community?	✓	
12. Does the hospital coordinate your outpatient services and/or home health care if you require further rehabilitation after your stay?	✓	

“I went home confident about taking care of myself.”

“I was very pleased with my progress and extremely impressed with the quality of care I received.”

“I am so thankful to have had this opportunity. I was nervous about leaving the hospital, but the care and training I received was excellent. I’m doing fine at home and know it is because of the help I received at your center.”

“Our experience was very positive. We continue to be involved in the outpatient rehab program. We are seeing amazing results from this therapy.”
